Stage Intro for Margot Halstead

Please use the following introduction when welcoming Margot to the stage.

Margot Halstead is a leadership communication strategist, keynote speaker, author, and Master Certified Coach who works in the moment before people speak—where reactions form, judgment comes out, conversations shift, and communication either works or goes sideways.

She is the author of *Owning Your IT*, where she translates complex interpersonal dynamics into practical, usable tools for real conversations, under real pressure, with real people.

Margot's work helps leaders recognize what is happening before they speak, stay clear when conversations get messy, and choose language that keeps people engaged, accountable, and moving forward.

Please join me in welcoming Margot Halstead.
